

An aerial photograph showing a road with a forest above and a compost pile below. The road is a two-lane asphalt road with white dashed lines. The forest is dense and green. The compost pile is a large pile of organic waste, including fruits, vegetables, and leaves, with the word 'COMPOST' overlaid in large, dark letters.

# ABOUT US

Jiangsu Topmake Environment Group Co., Ltd. aims to transform waste management on a global level, thus contributing to reducing climate change and making the world a better place to live!

Today, TMK is China's leading manufacturer of Organic Waste Composters, with its innovative composting technology and sustainable process design. We manufacture and provide Food Waste Composters, Garden Waste Composting machines, Shredders, and other, techniques and services required to take care of your organic waste.

Built on the principles of continuous active composting, our machines are compact, safe, and easy to handle, eclipsing current conventional waste disposal and management technology.

TMK works with some of the world's leading brands to implement a zero-waste solution in their operations. Our clients are able to minimize their waste in landfills, reduce their greenhouse gas emissions and thus reduce their overall environmental footprint.

TMK's vision is to become a reputable company to consistently delivers beyond the expected quality by its customers while earning competitive returns. TMK always aims at providing appropriate solutions in the organic waste management segment. In meeting our customer's needs everything we do is of high quality in pursuit of a continuous improvement process. We consistently strive to deliver high-quality and latest technology products and services.

**World Class Innovative Composting Solutions.  
at Competitive Prices.**

# TMK COMPOSTERS

## WHY USE COMPOSTERS ? WHAT IS THE PROBLEM THAT WE SOLVE ?

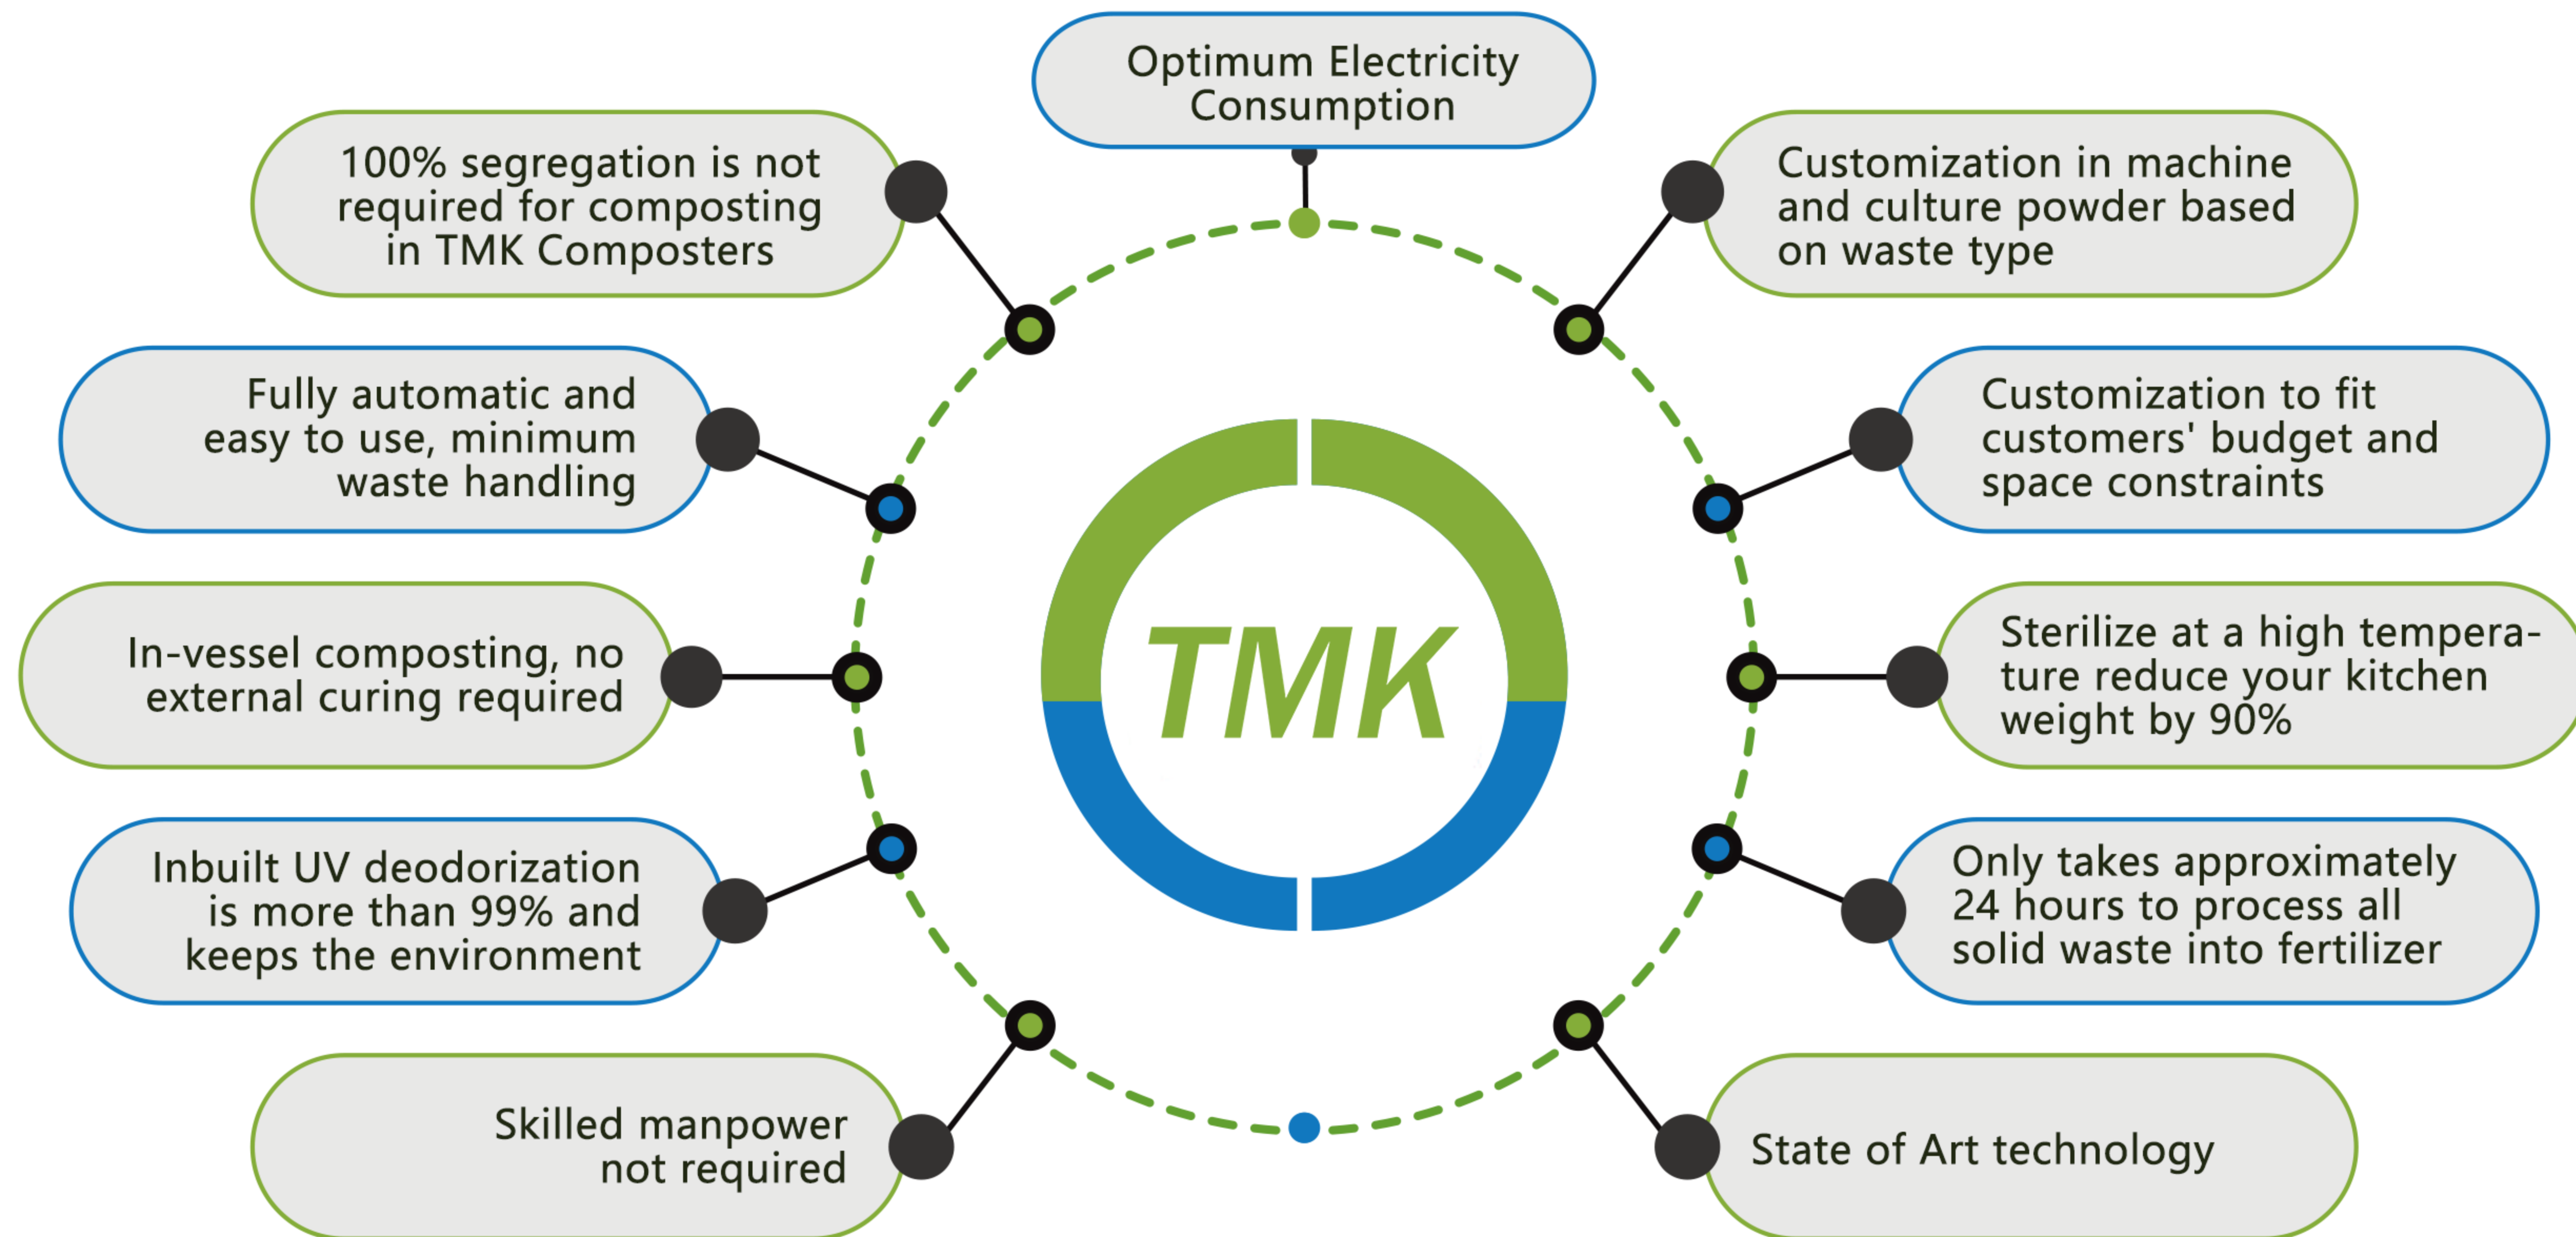

*TMK Composter* can be used in any place where there has food waste that needs to be processed. Typical installations of composters can be done in landfills, industrial canteens, housing communities, hotels, malls, hospitals, educational institutions, composting plants, etc.

*Whether you're a large or small business, we have a food waste machine for all your needs! Turn any food waste to compost in 24 hours with a 90% reduction rate at your fingertips.*

- When you compost, you not only reduce the burden on a landfill but also **improve soil to grow better food**
- Composting will also **prevent production of harmful GHG emissions** (greenhouse gases).
- City waste composting would **generate employment in urban areas** and enhance the livelihoods of waste managers.
- **Reduce Waste transport Costs**
- **Create revenue** from selling of City compost. Environmentally sustainable cycle.
- Being eligible for **Sustainable Development Goals**.

# OUR PRODUCT USP

- IOT (Internet of things) in premium models
- Remote monitoring and control
- Automatic bin lifters and feeders
- Automatic shredders
- Dual inlet with and without shredders

# HOUSEHOLD COMPOSTERS

## Food Waste Disposer

Function: Grinding + Drying

Size: 250x250x325mm

Weight: 8.5kg

## TMK-2

Capacity: 2KG/Day

Size: 535x235x580mm

Weight: 16.5kg

## TMK-5

Capacity: 5KG/Day

Size: 430x390x594mm

Weight: 18kg

# COMMERCIAL COMPOSTERS

**TMK-30**

Capacity: 30kg/day  
 Size: 932x522x882mm  
 Weight: 128kg

**TMK-50**

Capacity: 50kg/day  
 Size: 1301x683x1089mm  
 Weight: 240kg

**TMK-100**

Capacity: 100kg/day  
 Size: 1532x782x1100mm  
 Weight: 300kg

**TMK-300**

Capacity: 300kg/day  
 Size: 2352x1787x1403mm  
 Weight: 1200kg

**TMK-500**

Capacity: 500kg/day  
 Size: 3741x1752x1850mm  
 Weight: 1800kg

**TMK-1000**

Capacity: 1000kg/day  
 Size: 3651x2049x2033mm  
 Weight: 2500kg

**TMK-5000**

Capacity: 5000kg/day  
 Size: 6500x2300x2100mm  
 Weight: 5460kg
